About Wavlink

Wavlink is committed to offering the best products and services to meet each of its customer's unique needs. It guides the company towards its long-term goals, which has contributed to its success as one of the fastest growing brands globally. Whether it is WiFi MESH Router, Outdoor AC/AP, Notebook Docking Station, Wavlink designs all its products to be user-friendly, the company does not compromise when it comes to user experience. Wavlink's products come with innovative and user-friendly features, delivering the best experience for the end-user.

In 2016, Wavlink introduced robust Touchlink password free function in its WiFi Router and AP devices. It unveiled an option-in easy password management feature for all the line up. In 2019, Wavlink introduced the "Turbo" function to its WiFi products which boost router range coverage when needed.

Wavlink designs products that address the unique needs of its customers. Since its founding, Wavlink has pushed the standard in product design, usability and functionality. Wavlink's hardware and software solutions cater to various market segments, including education, business and home users. In the past few years, Wavlink has increased its retail presence with innovative products like Outdoor AP solutions for home owners, and access controller plus networking devices for small and medium business.

Vision of Wavlink

Wavlink's vision guides the company's decision-making processes, strategic management, and operations. It ensures that each decision takes the company closer to realizing its mission and goals. To make the best products in the market and to leave the customers better value and experiences than they found us.

Strength of Wavlink

From the first internal card reader, HDD storage docking, USB Giga LAN card, WiFi range extender in its true sense, etc, Wavlink delivers high-quality products to the market. The company seeks to advance its leadership in product design and original development by pushing for novel innovations. In 2024 alone, Wavlink introduced 65 industry-leading new products to the market and awarded with 11 design awards including Reddot, IF Design, Idea and Good Design, as well as 8 hours such as innovation laboratory of the State to credit Wavlink research and development effort and achievements.
