Wireless Microphone Vibe M1

Charging Case: 115×55×65mm

TX: 30×18×48mm

RX: 59×21×44mm

DSP Noise-Reduction

Effectively suppresses ambient noise

Hi-Fi Audio

20Hz–20kHz frequency response and 16bit/48kHz sampling

8GB Storage

Provides safe local audio backup, preventing file loss

Professional Audio, Wirelessly Perfected

2.4G Anti-interference Transmission

Stable range up to 250m and ≤20ms ultra-low latency for perfect audio-video sync

Dual-Channel Recording

2 Transmitters + 1 Receiver with portable charging case, ideal for dual-person recording

All-Day Battery

8h single-use battery life, plus over 2 full recharges from the charging case

Color Touchscreen

Clearly displays battery, volume level, and more for easy operation

Wide Compatibility

Widely works with USB-C phones, cameras, and computers — simply plug and play

Compact & Portable

Ensures comfort and flexibility, empowering you to create freely and effortlessly

Compatibility

Charging Case: 88×45.8×63.3mm
TX: 28×28×16.2mm
RX: 40.8×26.8×9.7mm (Mobile Version)
40.2×30.1×20.5mm (Camera Version)

Up to 24H Battery Life

8-hour single use plus extra 2x
recharges via charging case,
keeps recording nonstop all day long

200M Wireless Range

Stable 2.4G signal ensures clear audio
transmission even in large, open
shooting spaces

Dual Wearing Options

Allows you to clip it on your clothes or
wear it with a lanyard for easy and
comfortable use

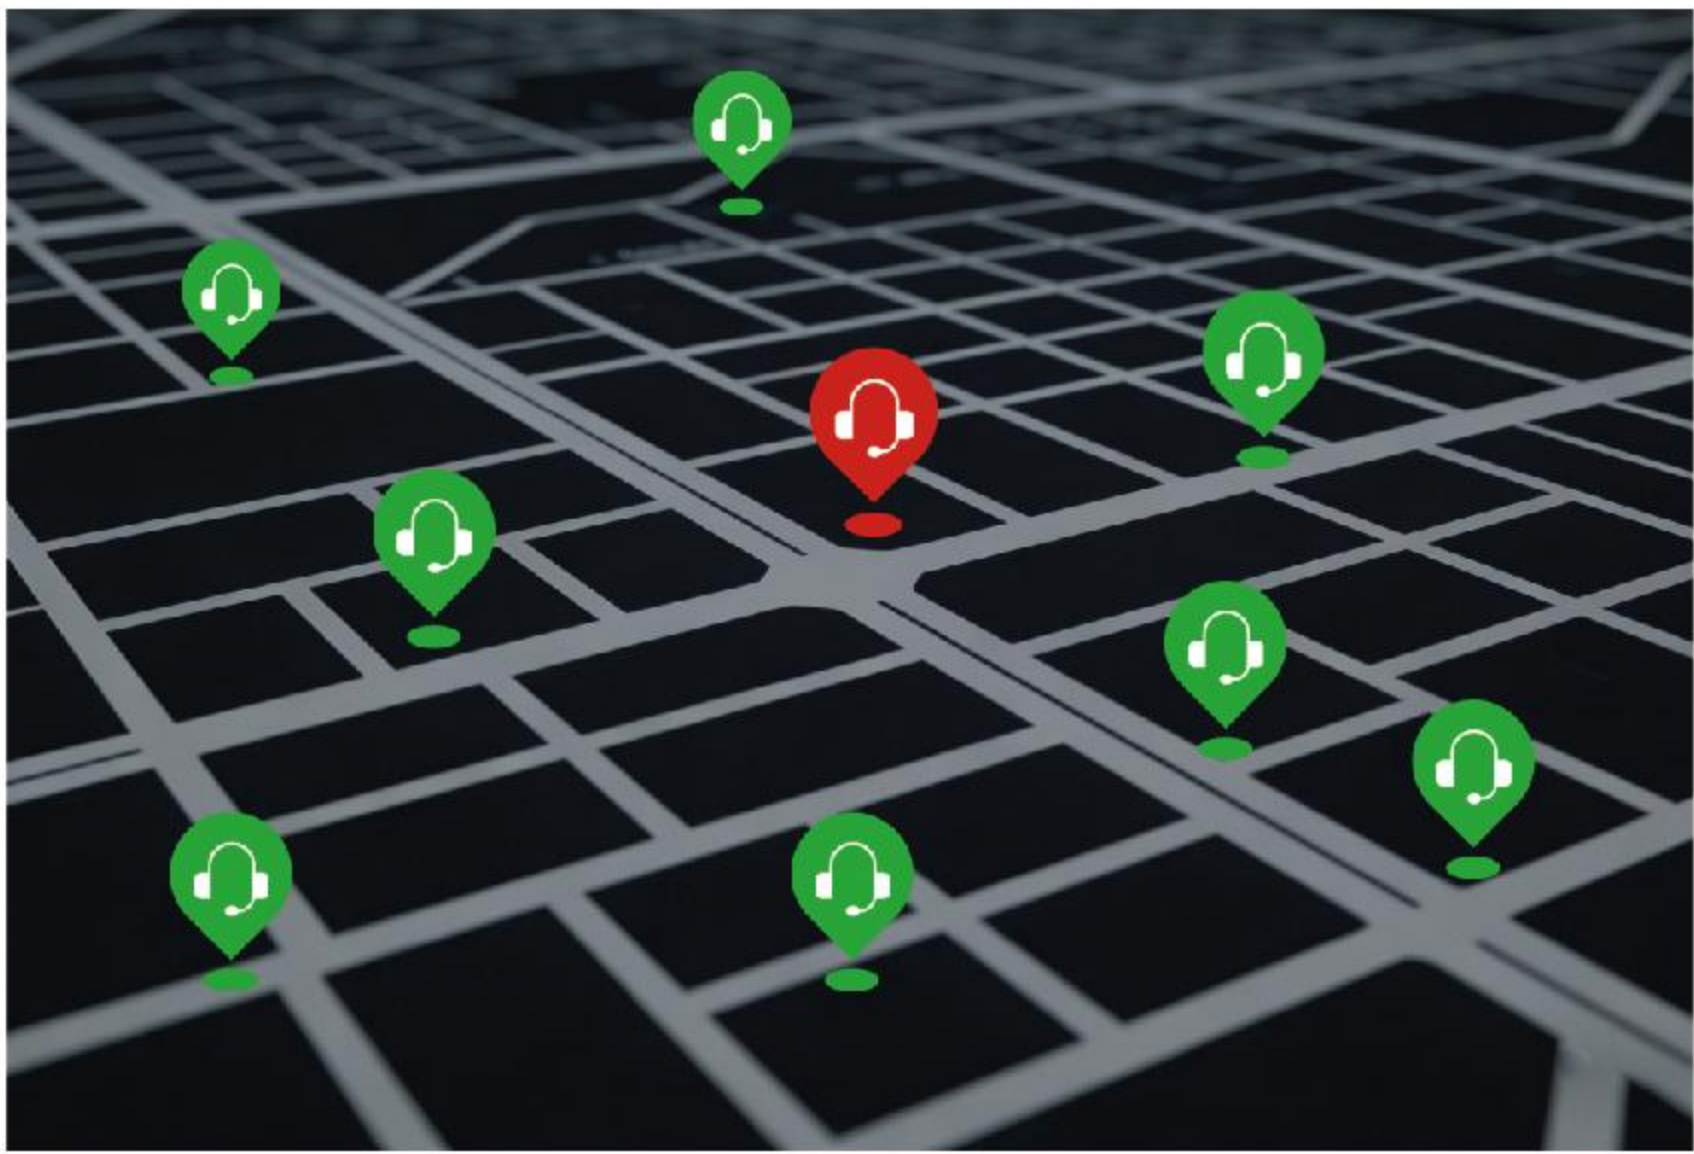

Wireless Full-Duplex Intercom FrontLine

1×Master + 5×Remote	1×Master + 6×Remote	1×Master + 7×Remote

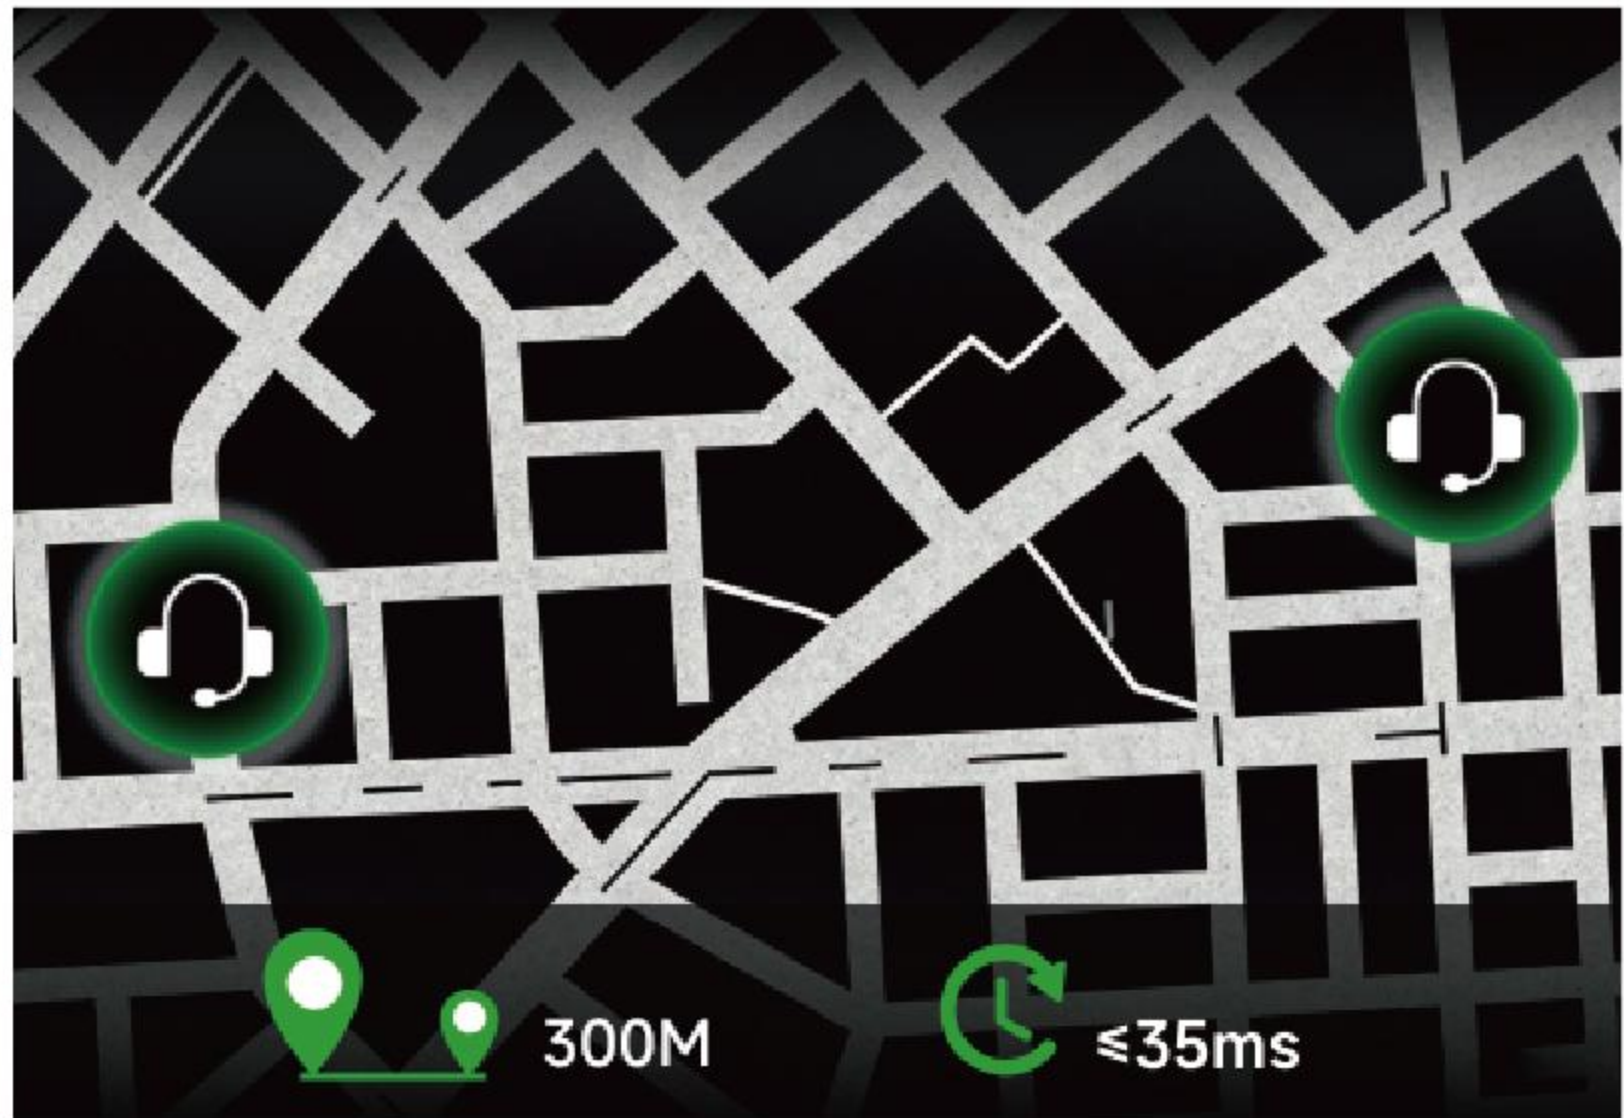

Supports up to 1 master + 7 remote headphones, real-time full-duplex communication without pressing to talk.

Full-Duplex 8-Person Talk

Professional Noise-Canceling

270° adjustable directional mic + AEC noise reduction, delivers clear voice in noisy environments

Transmission Performance

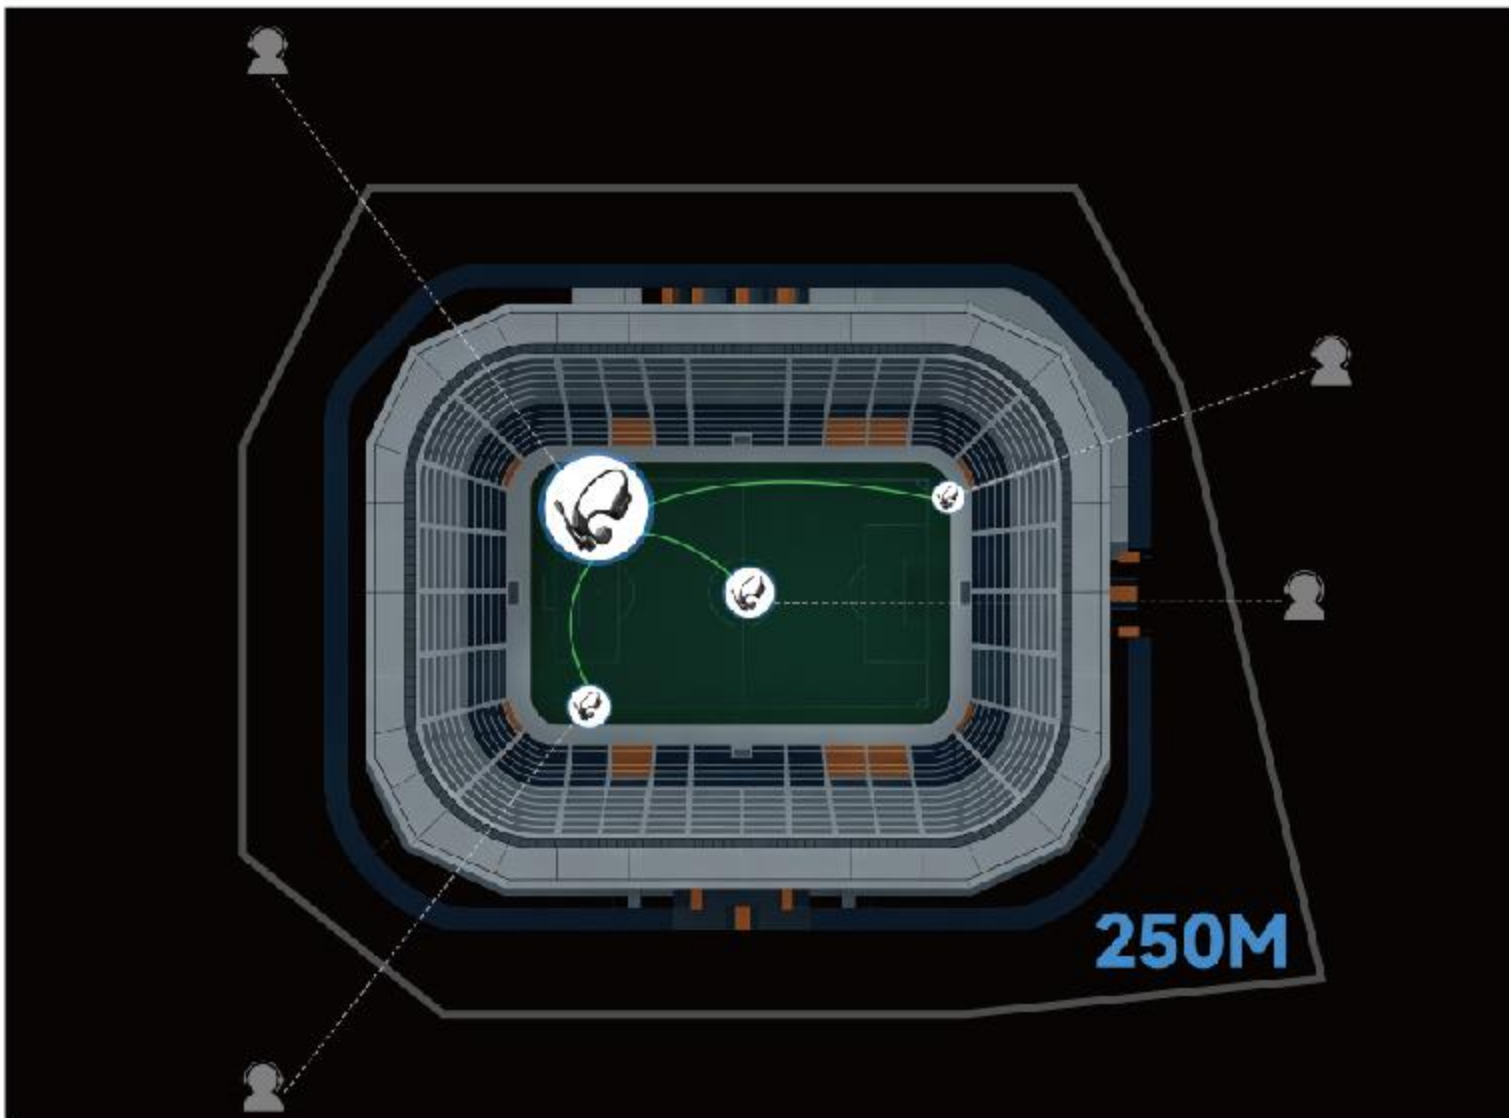

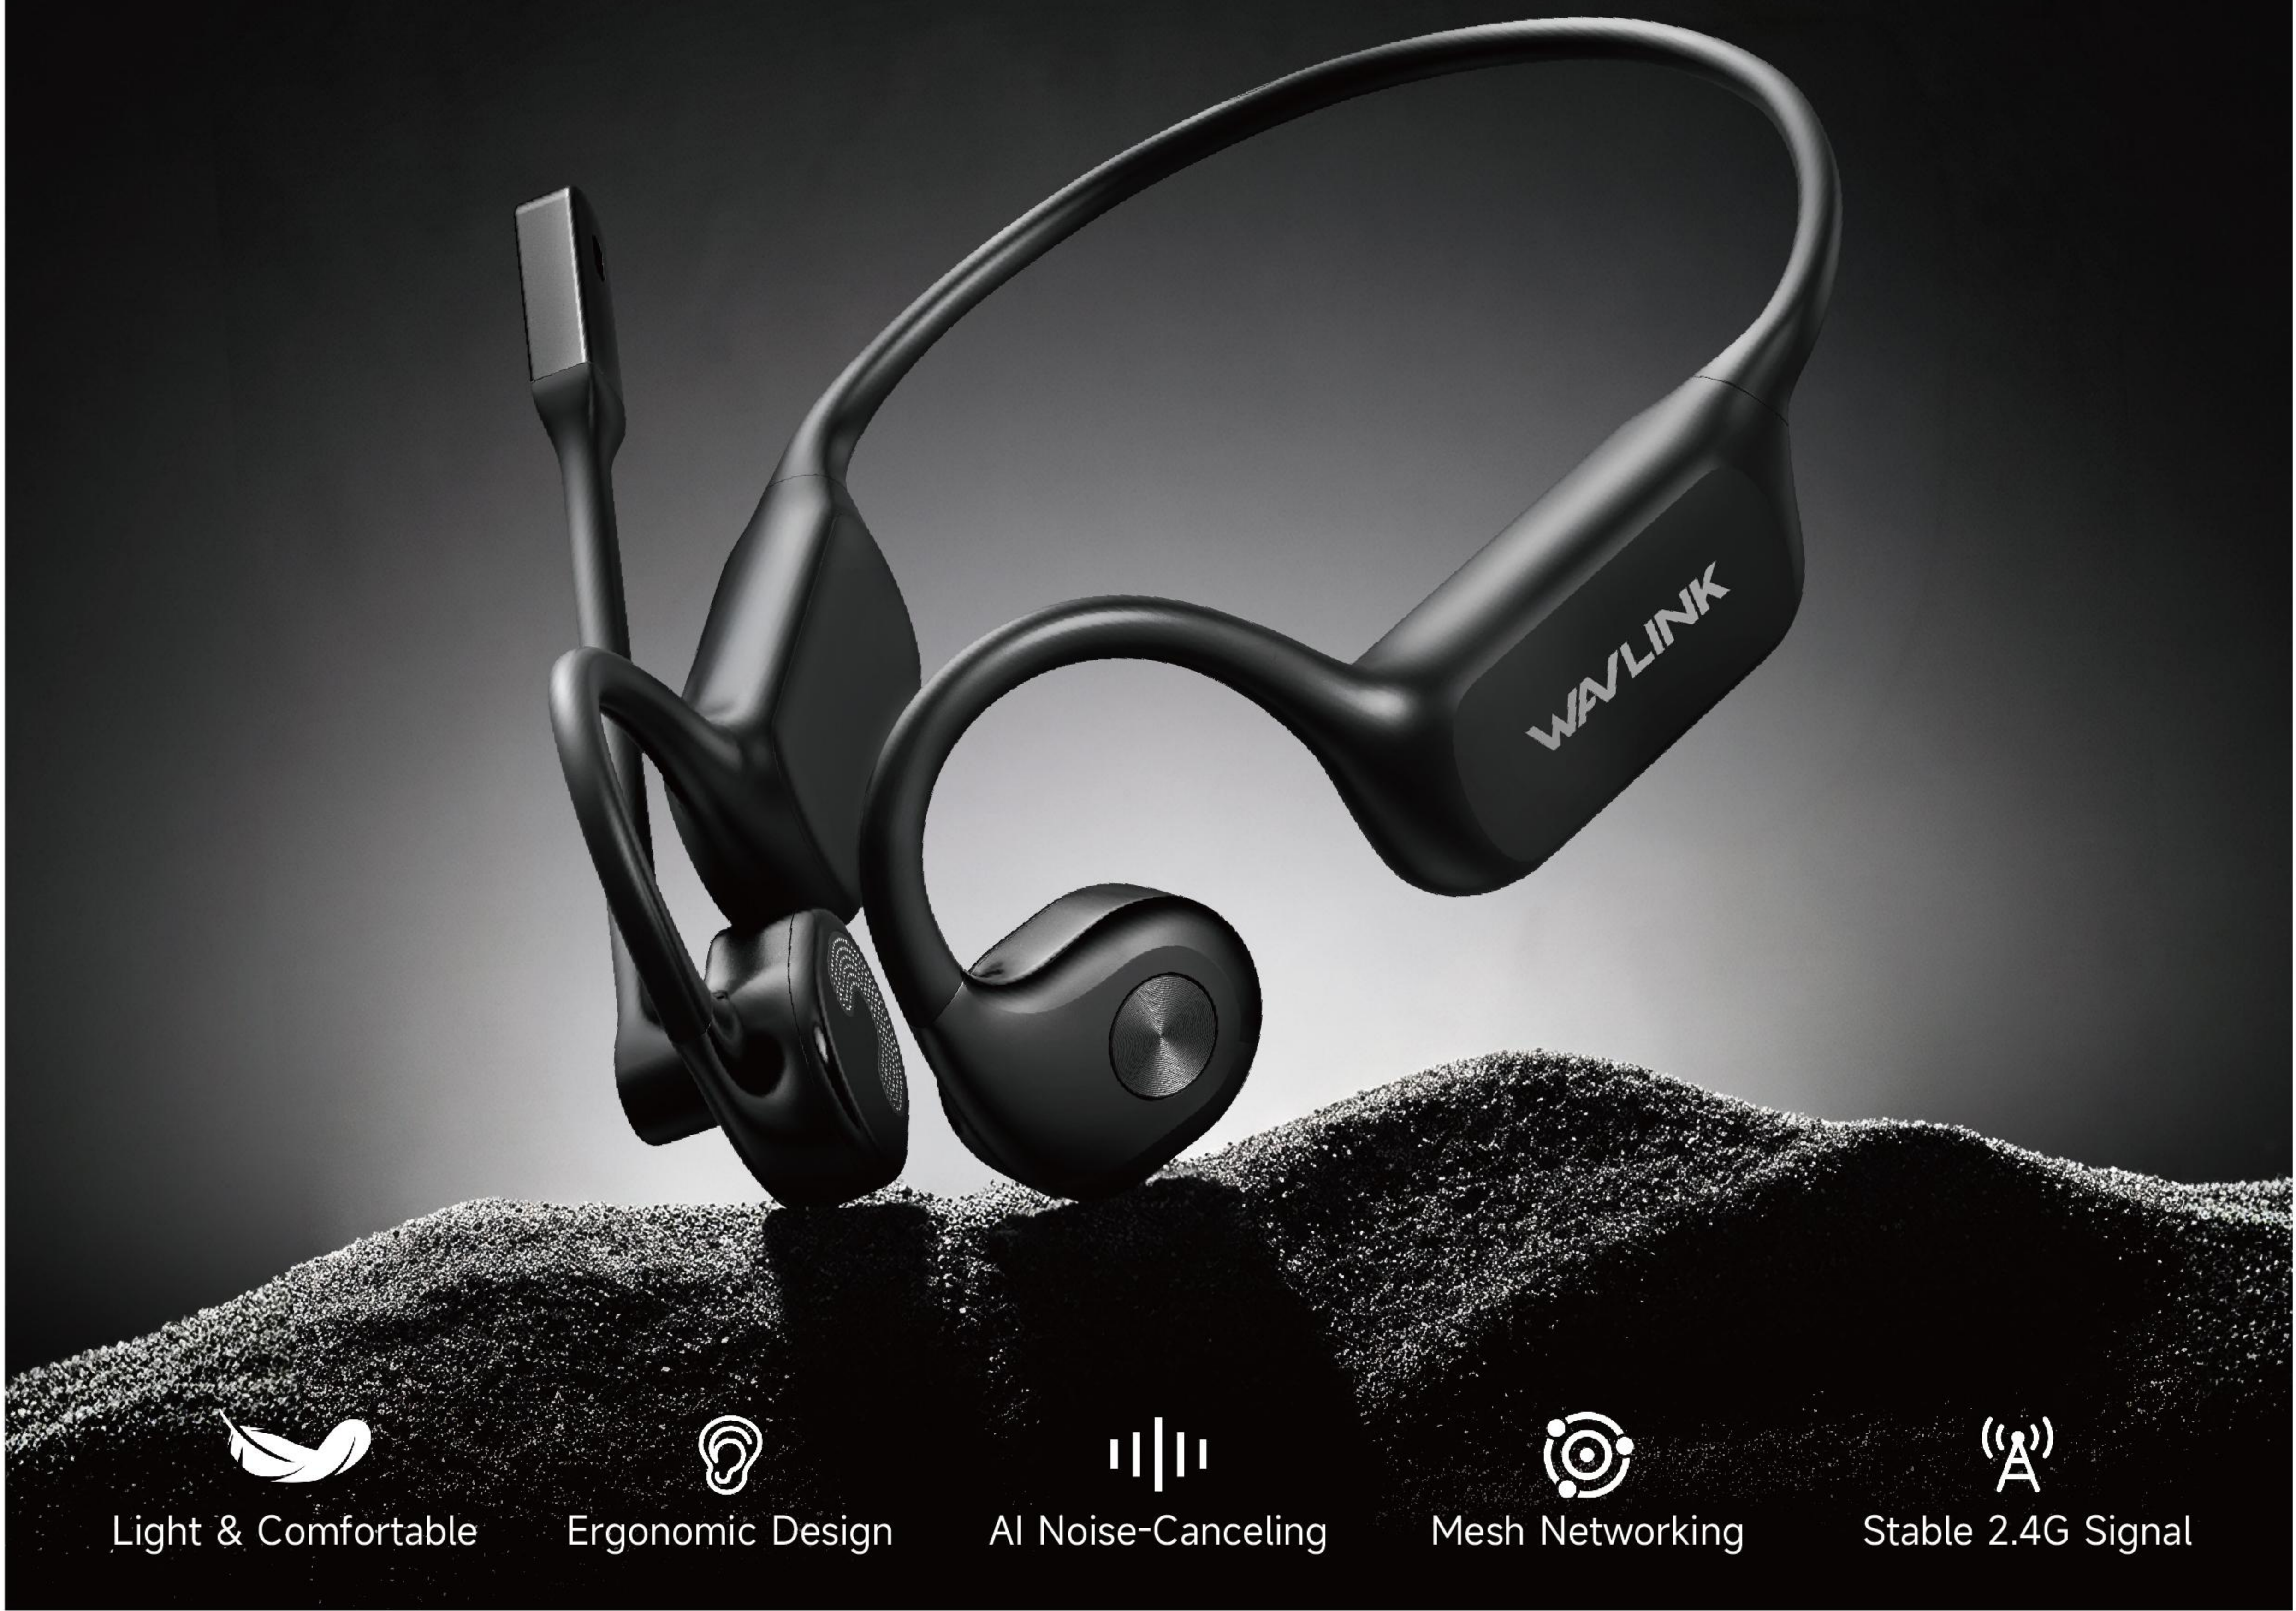

300m wide transmission & ≤35ms ultra-low delay, ideal for outdoor shooting and on-site supervision

Unlimited Power Supply

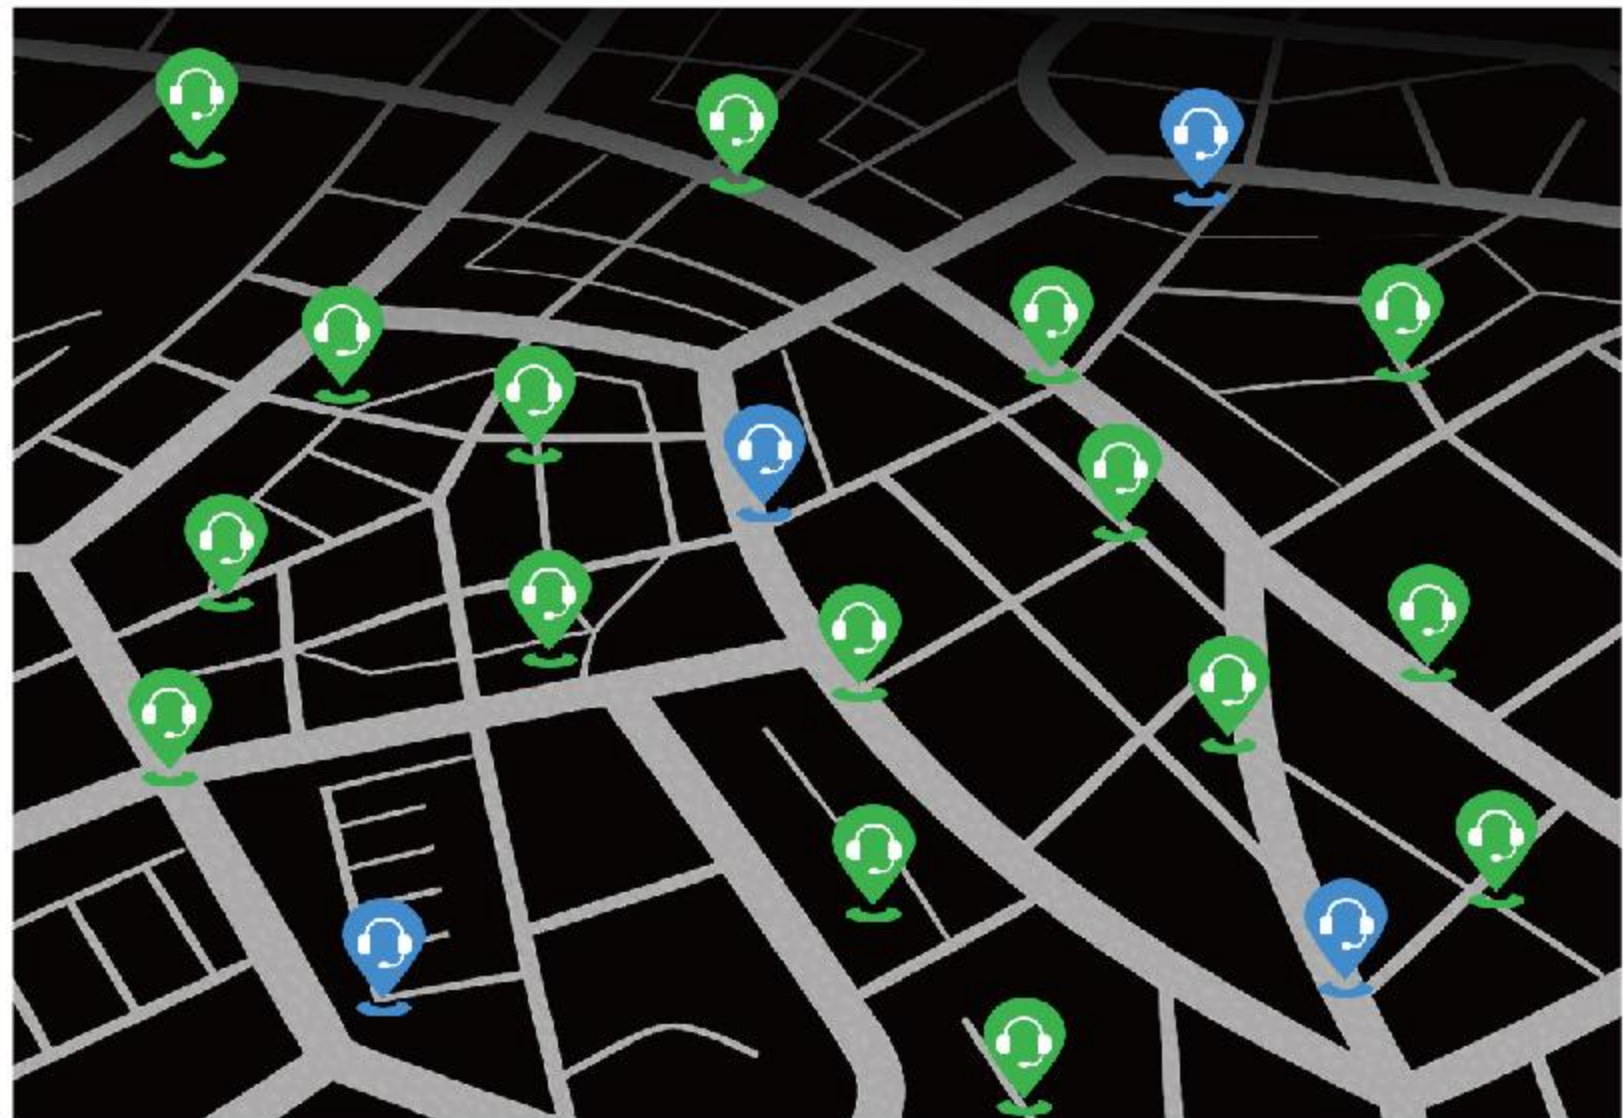

Power through detachable battery + 5V/1A mobile power support. Keep talking for hours without worrying about battery drain

Wireless Full-Duplex Intercom FrontLine Air

Long-Range Coverage

Stable 250m daily range, max. 600m communication for large venues.

24 Unit Mesh Network

Max 24 nodes in mesh, enabling 4-channel real-time full-duplex intercom for team collaboration.

Removable Battery

Swap batteries quickly to support all-day on-site continuous operation.

Unlimited Clear Version

Supports up to 4K@60Hz via HDMI and 1080P@60Hz over 3G-SDI, delivering professional-grade signal input and output.

Max. 1-to-3 Distribution

One transmitter feeds up to three receivers simultaneously, enabling multi-screen monitoring for complex on-site shooting workflows.

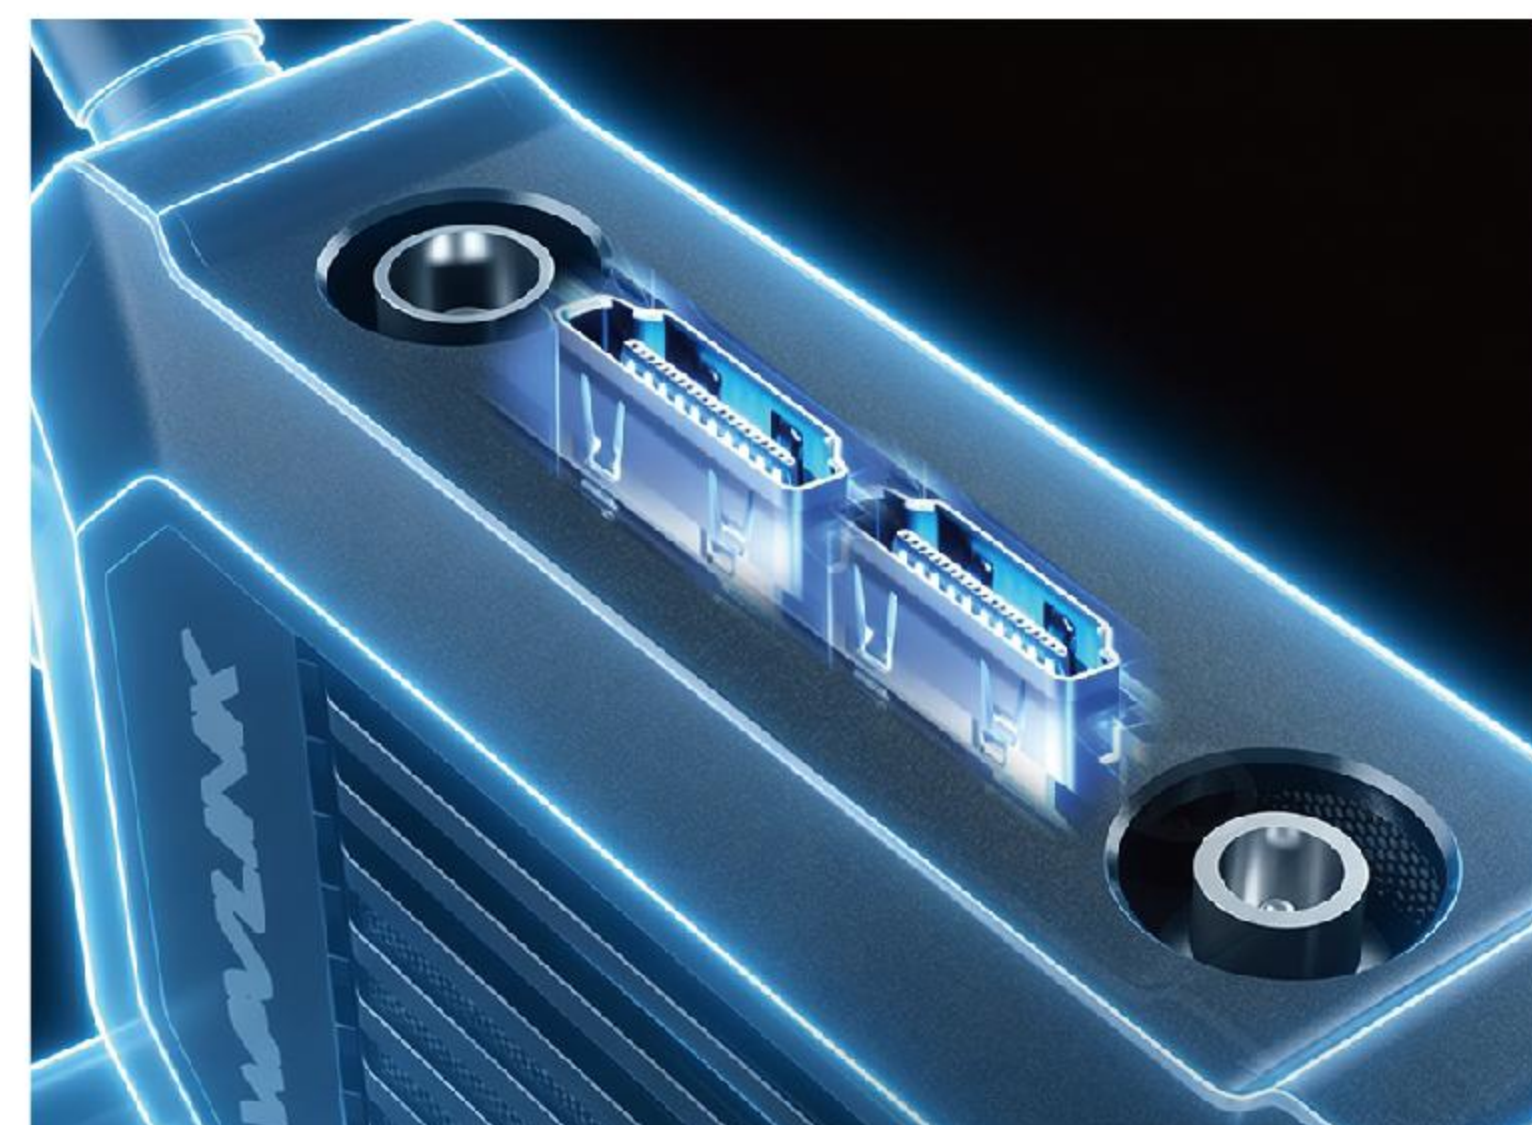

Up to 500 Meters

Transfer UHD video up to 500m in open space, ideal for large-scale outdoor shooting.

UVC Direct Streaming

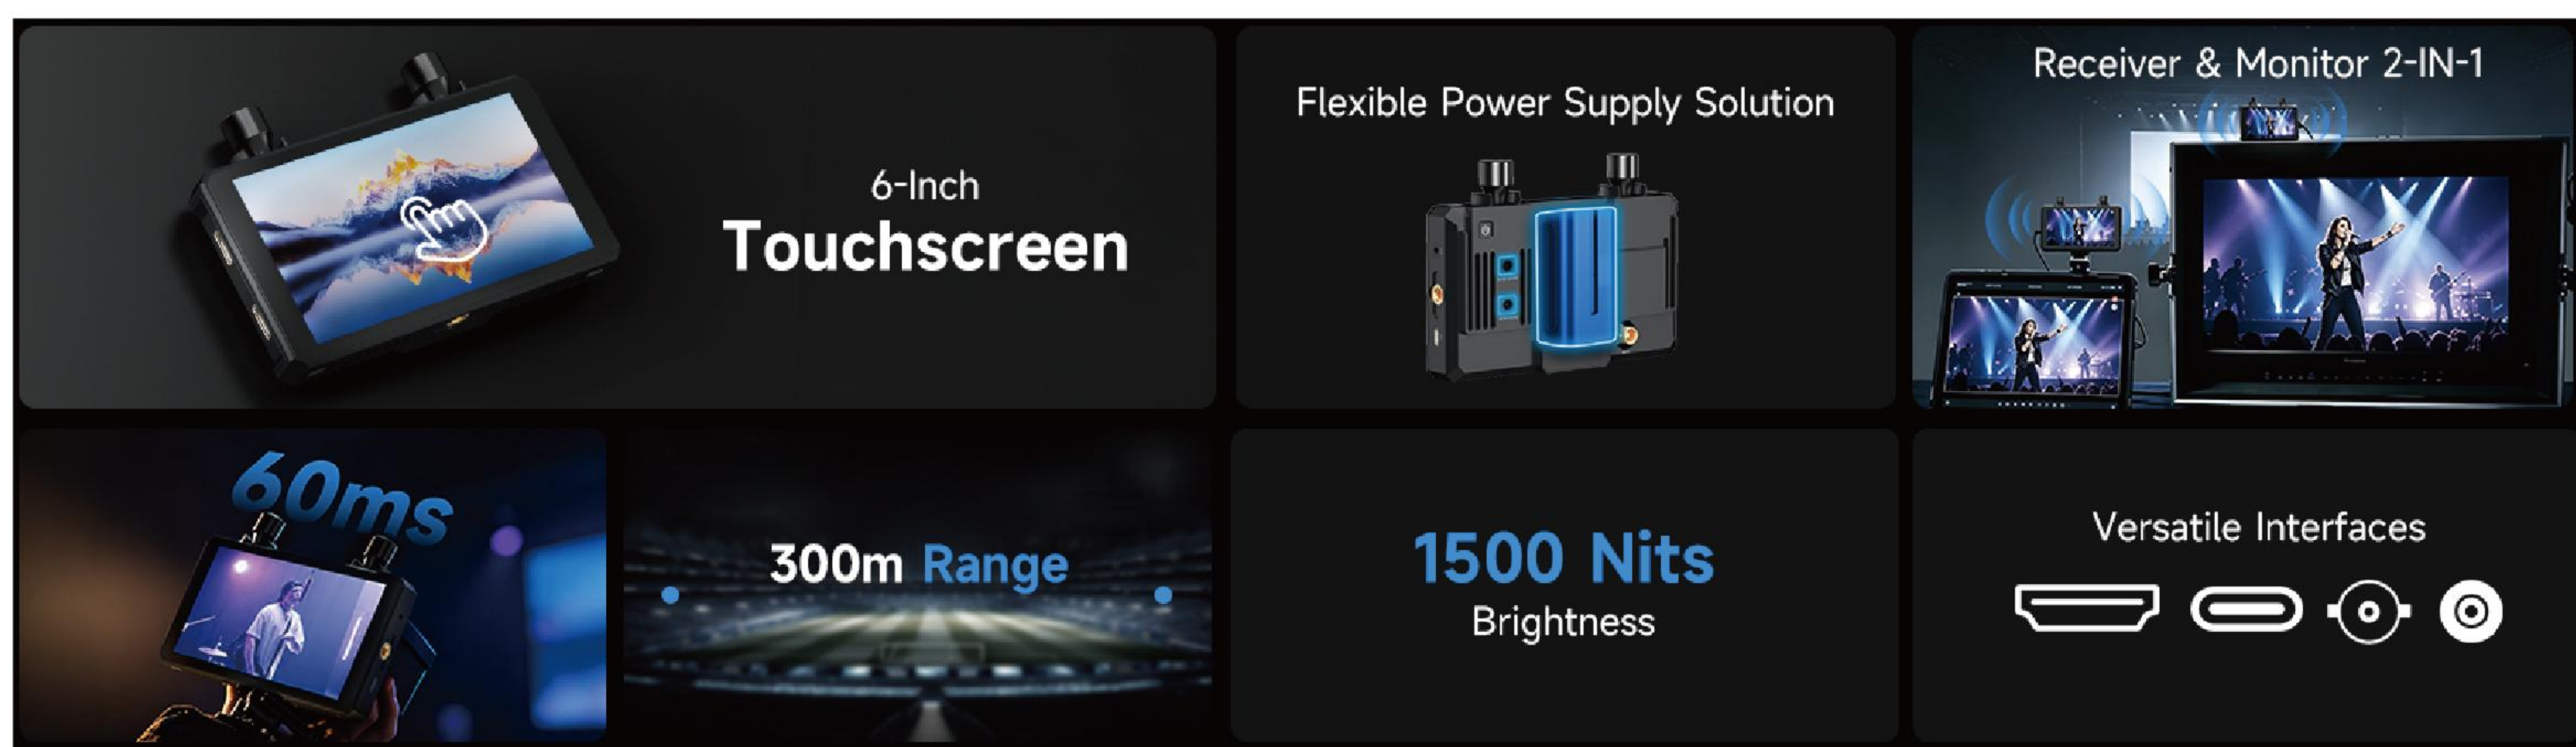

RX with built-in UVC capability, unlock instant recording & live broadcast via OBS and popular third-party capture software.

HDMI & 3G-SDI Dual Port

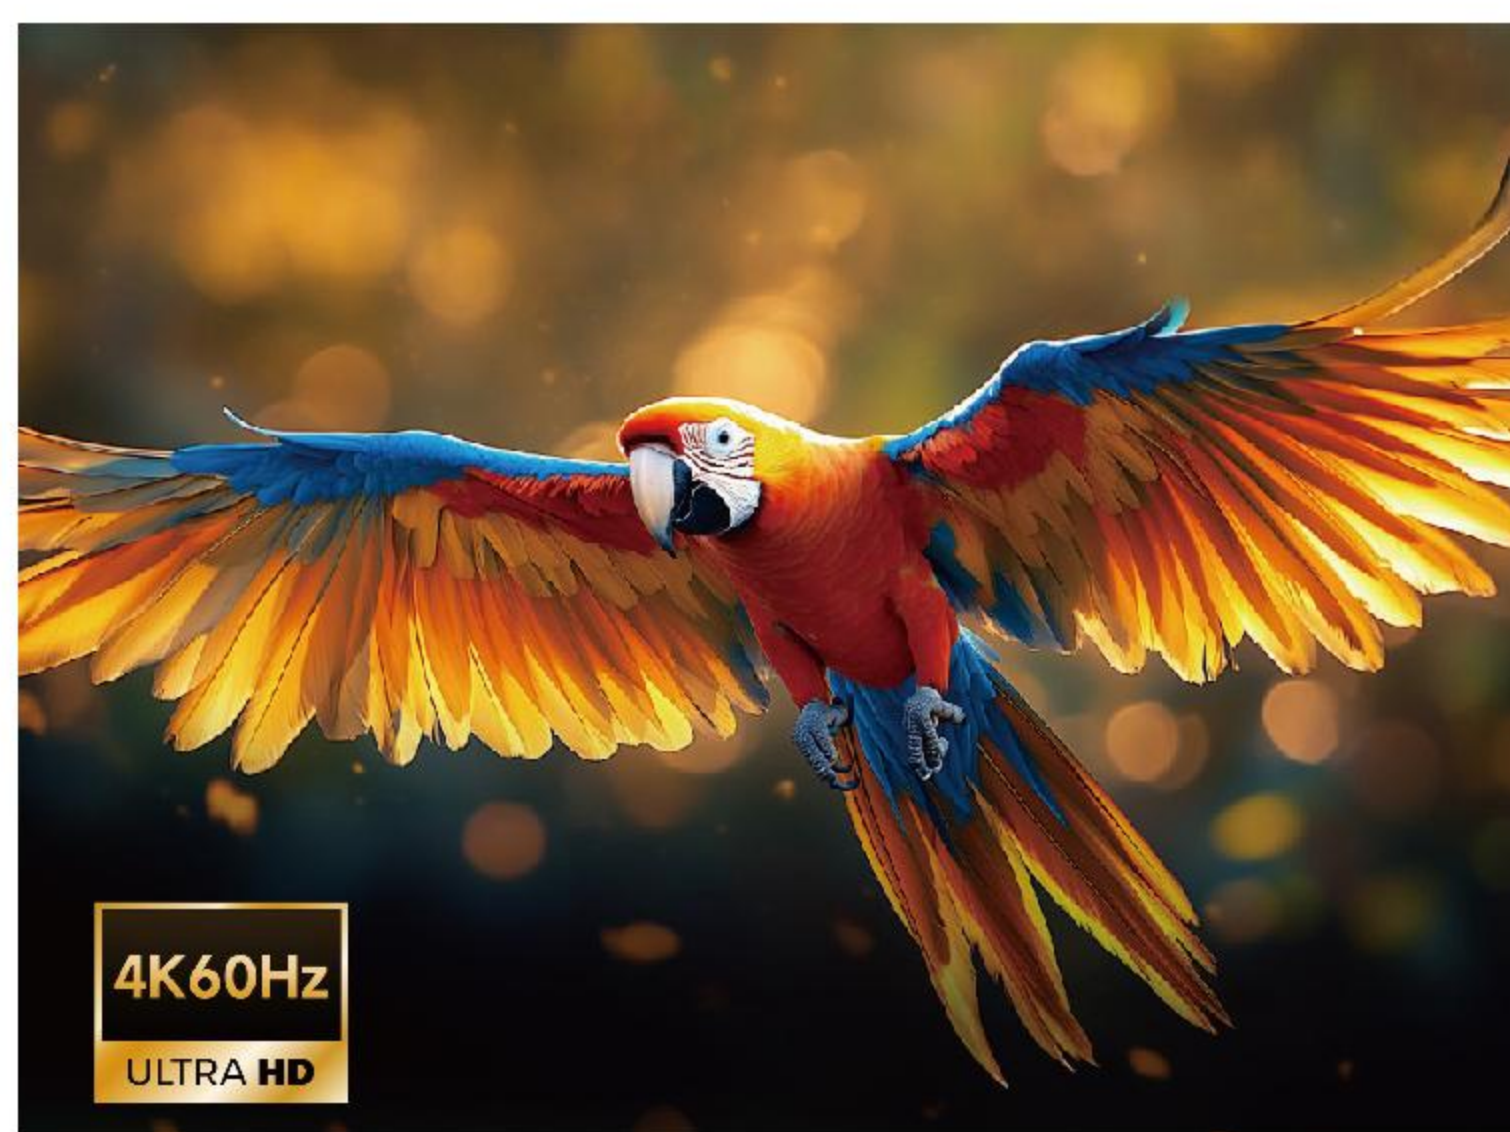

Compatible with professional cameras and displays for versatile signal routing.

Wireless Monitoring Flux View VM1

Dual-Band Connectivity

2.4G & 5G transmission with ultra-low 60ms latency, delivering smooth real-time video for monitoring and shooting.

4K@60Hz HDMI Pass-Through

Accepts and loops out 4K@60Hz HDMI signals. The integrated 6-inch screen delivers 1080P monitoring for preview.

Camera Power Supply

Power your camera directly from this receiver, eliminating your battery life anxiety during outdoor shooting.

4K Capture, Pro Streaming

Record and stream your gameplay in stunning 4K@30Hz with ultra-low latency

Hub Mode: Connect Peripherals

Connect your USB devices with ease, transforming your laptop into a more capable workstation

Stunning Visuals: 4K@144Hz HDR

Drive breathtaking 4K resolution at 144Hz with HDR for ultra-smooth, lifelike graphics

Support 90W PD Charging

Focus on your Switch adventure—reliable power supply keeps your games running smoothly
